PROFESSIONAL SUMMARY

Award-winning problem solver transitioning from a well-rounded tech background into DevOps. I bring strong communication and collaboration skills honed through diverse experiences. Leveraging my passion for automation and efficiency, I'm eager to optimize software delivery and infrastructure as a DevOps engineer.

TECHNICAL SKILLS

Cloud technologies	Aws, Digital Ocean, Gcp
Build Tools	Maven, Js
Container Technologies	Docker, Kubernetes
Scripting	shell and python
version control system	Git and GitHub
configuration management	Ansible
Infrastructure as code	Terraform
CICD	Github action and Jenkins
Monitoring	Grafana, Prometheus and uptime
Code analysis	Sonarqube
Security	Keycloak wazuh
Testing	cypress, jira, Excel sheet

PROFESSIONAL EXPERIENCE

[AWUJO](#) Nigeria (Remote)

2022-2023

Community Management (2021 – 2023)

- Established and maintained positive relationships with guild members, fostering a

- welcoming and inclusive environment for all players.
- Proactively engaged with community members through various platforms, such as forums, social media groups, and Discord channels, to facilitate discussions, address concerns, and provide timely support.
- Organized and hosted community events, tournaments, and game nights to promote camaraderie and boost member participation.
- Implemented effective communication strategies to disseminate important announcements, updates, and community guidelines to guild members.

[FIVERR](#) USA,

2023-present

Freelancing (2020 – 2023)

- Provided professional website design and development services to clients on Fiverr platform.
- Collaborated closely with clients to understand their business objectives and translate them into visually appealing and functional websites.
- Integrated various content management systems (CMS) such as WordPress or Shopify to enable clients to manage their websites easily.
- Created landing pages and sales funnels using ClickFunnels to drive conversions and lead generation for clients.

[IMALIPAY](#) Nigeria

2023

Devops engineer(intern)(2023)

- Created CICD pipeline for the repositories
- Built docker images and push them to ECR
- Deployed to Kubernetes using helm chart
- implemented scanning codes for vulnerabilities
- used cypress for quality assurance testing
- integrated sonarqube for code analysis

[IMALIPAY](#) Nigeria

2023-present

Devops engineer(2023)

- Gained valuable experience in CI/CD for Java-based applications using Maven, enhancing build efficiency and reliability.
- Gained valuable experience in CI/CD for React-based applications
- Collaborated with developers to optimize code repositories, resulting in faster code retrieval and collaboration.
- Assisted in setting up a monitoring system using Grafana, Loki, and Prometheus to ensure the health of critical servers and services.
- Assisted in setting up an uptime system using uptime monitoring tools to ensure the state of the application
- Developed and maintained the continuous integration and deployment pipelines using Github action, vulnerability scanning tools, code analysis (sonarqube), and code coverage
- Create infrastructure from scratch using Terraform on GCP

- Automate the cypress testing using the GitHub pipeline and send reports to the Amazon S3 bucket

EDUCATION

Crown Hill University, Ilorin

2018-2023

Bachelor of Science, Computer Science

Malhub relearn

2023-present

DevOps Engineering

CERTIFICATIONS

AWS Certified Cloud Practitioner

- Issued by Amazon Web Services (AWS CLOUD CLUB UNILORIN)
- Date Earned: 2023
- Location: Ilorin Kwara state.

Terraform

- Issued by Kodekloud
- Date Earned: 2023
- Location: online

Software Engineer

- Issued by Alx
- Date Earned: 2023
- Location: online
